## Our Research Center

ActivMed Pease is conveniently located on the Pease Trade port in Portsmouth, NH; this newly renovated space offers 5,600 square feet of medical office space. We are approximately 30 minutes from the Manchester airport, 60 minutes from Boston Logan Airport, and conveniently located near major highways.

We have a large waiting area, five exam rooms, a consenting room, lab areas with two drawing stations, -20 & -70 freezers, centrifuges, refrigerated centrifuges, ECG machines, storage space, monitor's room, copier, computer hookups with Wi-Fi, a drug storage area is locked, alarmed, and temperature monitored and a storage area for lab kits. There is also a regulatory office, physician's office, and conference room.

**Quality recruitment,  
quality data, quality care.**

**800+  
STUDIES**

*ActivMed Research has conducted  
over 800 phase II, III, and IV studies  
for more than 70 different  
indications over the last 25 years.*

## ALCANZA SITE NETWORK

### Patient Database and Local Demographics

*Our patient database comprises over 3,000 patients with unique medical profiles and continues to grow. Being situated between both Boston and Manchester, our site has access to nearly 2.5 million potential volunteers.*

### Our Commitment to Excellence

*Our highly trained coordinators and private physicians are dedicated to providing exceptional treatment to patients following Good Clinical Practice. All Clinical Staff is HIPAA, GCP, IATA, and CPR trained and re-certified every two years.*

*Our coordinators have clinical experience in nursing, laboratory, nutrition, medical doctrine, medical assisting, and bioscience. Each coordinator is tested yearly on their clinical skills. Documentation of training is recorded in our staff training logs and office SOPs. Quality is of the utmost importance to us; therefore, most of our staff have completed Clinical Research Quality Management training through the Quality Management Institute.*

### Marketing and Study Recruitment

ActivMed has dedicated Marketing and Recruitment staff who work closely with PIs and Coordinators to develop an optimal recruitment strategy that evolves as needed throughout the study. We have a team of digital marketers and graphic designers who can build, deploy, and manage local ad campaigns. Our robust CTMS system and call center allow us to quickly follow up on leads from various advertising channels and doctor referrals. We specialize in generating new leads and converting them into patients on a trial-by-trial basis.
